## Description

### Part of DGGF

Investing Dutch Entrepreneurs

### Description

A Dutch company purchases high-quality coffee from small producers through its local subsidiary and sells it to roasters in the Netherlands and elsewhere in Europe. The company strives to improve coffee quality together with farmers and other chain partners, in order to create value for farmers and to gain access to alternative markets where better (and more stable) prices are paid. The financing mainly concerns working capital for the purchase of the coffee beans.

The intended DGGF Starter financing to the Dutch company is in the form of a loan with a term of 4.5 years.

The expected impact is local employment of approximately 22 FTEs at the local subsidiary. In addition, more than 300 indirect jobs at the coffee farms and an increased income for the farmers.

This project will contribute to the Sustainable Development Goals: 1 (No poverty), 8 (Decent Work) and 9 (Industry, Innovation and Infrastructure).

### Country of investment

Nepal

### Risk category

The investment is scaled in category C in terms of CSR-risk.

A CSR (Corporate Social Responsibility) action plan will be drafted, which is based upon the OECD and IFC performance standards. The action plan aims to mitigate the risk on environmental aspects, working conditions and development aspects for the local community.
