Description

Part of DTIF

Investing Dutch Entrepreneurs

Description

This Dutch company is active in the sale of animal health products with the aim of making the farm antibiotic-free. Because of the enormous growth that the company is experiencing internationally, in various countries, they have a strong need for working capital. In collaboration with a Dutch bank, Invest International intends to meet this need.

This expansion, and the associated growth of the company, creates jobs of approximately 250 (35% women), of which approximately 20 in the Netherlands and the rest worldwide. Furthermore, the reduction of the use of antibiotics on dairy farms, will reduce food losses. All milk produced by cows taking antibiotics must be discarded.

Finally, the growth (turnover and profits) of the company also has a positive impact on the Dutch economy in general.

The project will contribute to the Sustainable Development Goals:
8 (decent work) and 12 (sustainable consumption and production)

Country of investment

Several, among others United States and Chili

Risk category

The investment is scaled in category C in terms of CSR-risk.

An Environmental and Social Action Plan (ESAP) will be drafted, which is based upon the OECD standards. The aim is to reduce the risk of non-compliance with these standards.
