

Dutch Good Growth Fund

Notice on proposed transaction DGGF1 2026/09/24 / Dominican Republic, Peru, Nicaragua and Colombia

Date of publication: 24 September 2026

Taking into account the provisions applicable to governing bodies under the Freedom of Information Act ('Wet openbaarheid van bestuur') and the Data Protection Act ('Wet bescherming persoonsgegevens'), the fund manager of the DGGF component 'Investing Dutch Entrepreneurs' publishes notices of proposed transactions.

Views

Parties may submit their views on the proposed transaction to the fund manager by contacting smemc@investinternational.nl within 30 days of the publication date of the notice. As soon as possible after the transaction has been signed, or after it has become clear that the proposed transaction will not proceed, the fund manager will inform those parties of the conclusions drawn from their views.

Part of DGGF

'Investing Dutch Entrepreneurs' – executed by Invest International

Description

Invest International intends to provide a EUR 1.2 million DGGF Scale-up Import Finance facility to a Dutch company based in Amsterdam. The facility will finance eligible cocoa purchases and inventory in transit and in external storage from the Dominican Republic, Peru, Nicaragua and Colombia. The project supports a sustainable and traceable cocoa supply chain by enabling larger purchases from Fairtrade- and organic-certified cooperatives, strengthening income opportunities for approximately 9,700 cocoa farmers and supporting agroforestry production systems that store carbon and protect biodiversity. The financing also contributes to employment in the Netherlands, local processing in a solar-powered factory and lower-carbon logistics, including transport by sailing vessel from the Dominican Republic.

The project will contribute to the
Sustainable Development Goals: 2, 8, 13 and 15.

Country of investment

Dominican Republic, Peru, Nicaragua and Colombia

Risk category

The investment is classified as category C in terms of CSR risk.
Potential environmental and social risks are mainly related to the cocoa supply chain.
These risks are partly mitigated through Fairtrade and organic certification and will be further assessed during due diligence in accordance with the OECD Guidelines.
